

Did you know recycling just one aluminum can saves enough energy to:

Run a TV for two hours?

Power a 14-watt CFL bulb for 20 hours?

Power a computer for three hours?

When you think of the difference just one person could make, imagine the positive impact whole communities could have by recycling.

Give This Paper a Future!

This isn't this piece of paper's first rodeo. It's been recycled before, and it can be recycled again. So do your part.

Check out these other items that can thank recycling for a chance at an exciting second career.

That plastic bottle in your cup holder today could become a park bench or even filling for a parka one day.

Recycle that newspaper today and it could return to your house as a cereal box.

Recycle that aluminum can today and it could be back on the shelf as a new one in just 60 days!

And this piece of paper? Recycle it today and who knows what story it might tell later.

About Waste Management

We partner with our customers and communities to manage and reduce waste from collection to disposal while recovering valuable resources and creating clean, renewable energy.

Make a difference

Simple ways to help your community every day

You have the power!

Every wonder, “Why recycle?” Yes, it’s good for the environment, but there’s more to it than that. When you **Recycle Right**, great things happen.

Think about it. Every day, we encounter hundreds of recyclable items. By recycling properly, we can save tons of raw materials and be good stewards of our environment.

Now, you have the convenience!

Waste Management helped pioneer a process that lets you put all your clean recyclables into a single receptacle—no need to sort your recyclables!

Your recyclables go to a special facility that sorts the materials into separated bales ready for use by manufacturers.

To ensure these materials can be put to their best use, it’s important to keep food, liquids and plastic bags out of your recycling cart.

You make a difference.

Participation is Key

It’s important that every community member do his or her part. Please encourage your friends, family and neighbors to recycle the right way.

RECYCLING RULES

1. RECYCLE ALL BOTTLES, CANS, PAPER & CARDBOARD
